Managing Director of MRL Posnet (P) Ltd Kothapalli Kishore on Monday said entrepreneurship was a function of leadership which optimises opportunities and resources.

He was speaking to students of Post Graduate Programme in Management (2018-20) at Indian Institute of Management-Visakhapatnam.

An alumnus of Kellogg School of Management and IIT (BHU), Mr. Kishore shared his story of entrepreneurial journey. He explained how each of the courses he attended at Kellogg helped him in solving various business problems and turning his business scalable and profitable.

Mr. Kishore urged the students to have clarity of thought, develop a big picture and only then, drill down into details. If one were to get bogged down in details at the beginning itself, one might feel that the

problem was complex. In most situations, a challenge was a mix of many simple problems. If each of these simple problems could be defined well in the form of a clear sentence, the whole challenge itself becomes easily understandable and hence solvable.

Earlier, Prof. Rajendra Bandi, senior professor from IIM-Bangalore and chairperson of admissions at IIM-V, presented the demographic profile of the incoming batch of 105 students representing 20 States.
