Final Placement Report
PGP 2022-24

Overview

“The relentless pursuit of excellence paves the way for remarkable achievements”
IIM Visakhapatnam, affectionately known as the sunrise IIM, continues to shine brightly in the realm of high-quality management education and its positive outcomes.

The Institute achieved a remarkable 100% placement record for the 8th graduating MBA batch 2022-24. Amidst the uncertainties of the global economy and market fluctuations, IIM Visakhapatnam has once again demonstrated its unwavering commitment to excellence. For the first time since its inception, the Institute witnessed **four international offers** with an average salary of **Rs. 19.50 LPA**. The overall average package stood at **Rs. 15.61 LPA**, with the median at **Rs. 15.50 LPA**. Delightfully, recruiters recognized the exceptional potential of the students by offering higher packages that reached an impressive **Rs. 43.25 LPA**. This is about 25% higher than last year's **Rs. 32.65 LPA** - a testimony to the talent pool of the Institute. In terms of percentile earnings, the top 10% of students

received an average package of **Rs. 24.62 LPA**, while the top 25% secured **Rs. 21.05 LPA**. Even the top 50% achieved an enviable average package of **Rs. 18.53 LPA**. These achievements demonstrate the high all-round performance of the students despite the job-market challenges.

Held on a rolling basis, the placement season witnessed around 177 companies participating in the process and making multiple offers, with 117 new recruiters offering roles across various domains, including Consulting, Strategy, Finance, Product Management, Analytics, Brand Management, Marketing, HR & IT, etc. There has been a tremendous increase in the number of recruiters willing to partner in the placement process, an indication of the rapid strides made by the Institute, in imparting scholarship and skillsets of contemporary value to the industry. This year, BFSI (34%) bet big on fresh talent, followed by, IT & Consulting (31%), Manufacturing (12%), Logistics (7%) and the other sectors (16%) were FMCG, Retail, Healthcare, Real Estate & Construction, Telecom etc.

Director's Message

Congratulating the students and thanking the recruiters, the Director expressed jubilation at the grand outcome. “Our students and entire the Career Development Services team deserve rich compliments on this fantastic outcome. Despite the strong the headwinds, our students stood their ground, dug their heels in, and withstood the tough times, only to emerge stronger and put in even better performances. Full credit to them. Our Placement Teams and Committees never cease to amaze us with their sincerity of purpose and strength of purposeful effort. Full marks to them, for taking the rough with the smooth, and playing a catalytic and enabling role in the success of the students. The way the CDS team engages, equips, encourages, energizes, and enables our student cohort is a great case study in itself. The outcome of that effort is evident in all its splendor. An unbroken impressive record of placement, that too of the largest-ever batch this year. This, by no means, is a minuscule achievement”, said a beaming Chandrasekhar.

It's our pedigree, pride, passion, purpose, and potential that drive our high performance. It's our high performance that places our Institute in such a high position” gushed Chandrasekhar.

Prof. M Chandrasekhar
Director

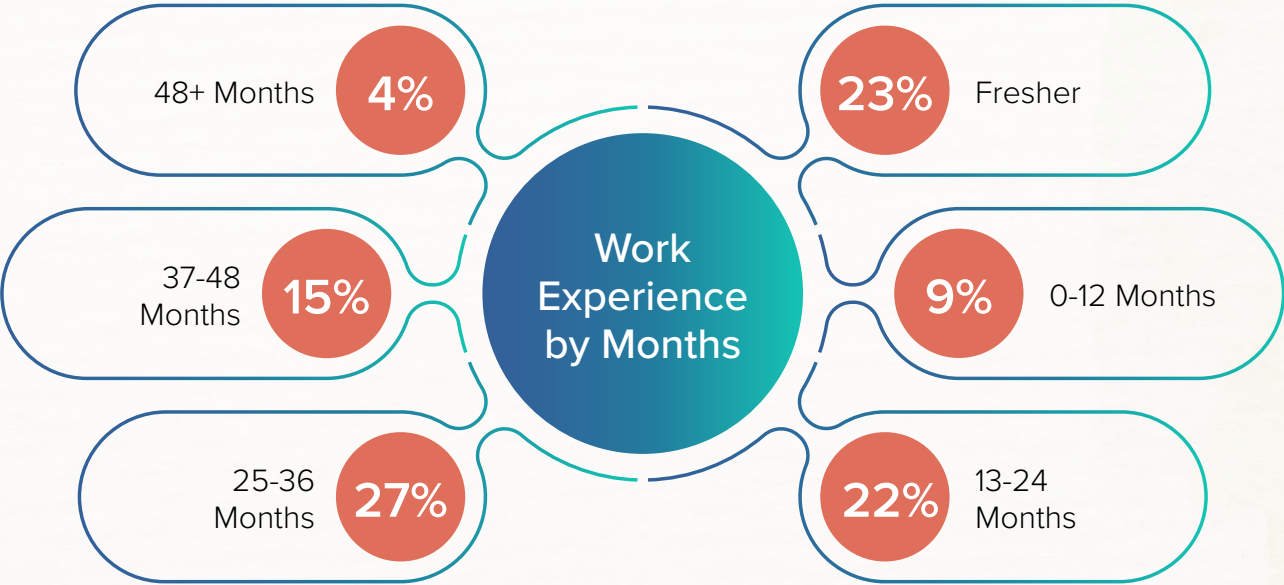

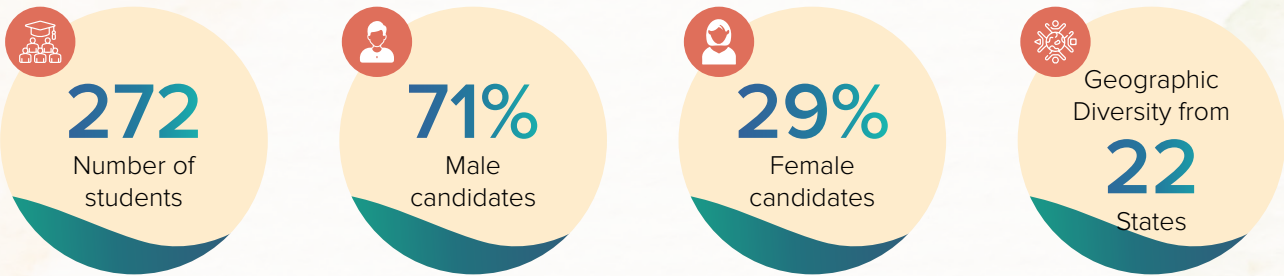

CDS Chairperson's Message

The CDS Chairperson, Prof. Deepika Gupta expressed her gratitude to all the recruiters who have reposed their faith in the Institute and students, “With the fear of global recession, we were highly worried and concerned about the outcome of the placement season (both finals and summers) this year. It is heartening that both the batches 2022-24 (finals) and 2023-25 (summers) outperformed our expectations. The results of 100% placements are pure joy to us! That four of our students bagged international offers adds a feather in their caps and multiplies our delight!! I thank my CDS Team, Students' Placement Committee and all the students for a challenging task made simple, and successfully accomplished. Our resilient and responsive systems, people and processes helped us meet the uncertainties successfully and we are now better prepared than ever, to meet any unpredictable environment”.
